Have you ever:

- wanted to fire your boss?
- wanted to start your own business?
- had a great idea for a product or service?
- needed to know how to earn an extra income?
- felt like you had real value to give to the world?
- felt that you weren't being utilized to your full potential?
- knew you needed to do something but had no idea what?
- tried to figure out just what you were doing wrong that prevented you from reaching your goals?
- tried to figure out the secret to success?

If you answered YES to any of the above questions then this workshop is just for you.

My name is Niquenya D. Fulbright and I am an executive life coach with over ten years of experience specializing in motivating entrepreneurs, executives and individuals in a career or life transition to achieve successes beyond their wildest dreams. I have learned a powerful secret. I didn't even realize it was a secret until I started applying the principles to my own life. The result has been an income that has surpassed my usually meager earnings. I have finally figured out what the rich already know and I am ready to share my findings with you. What keeps the filthy rich, rich? Simple. Those individuals who are enjoying the pleasures of financial freedom have learned the secret of economic success...using the laws of attraction to create multiple income streams.

Books and dvds like "The Secret" and other personal development programs give you just a generalized glimpse of this powerful life management tool. In this full-day workshop, I will teach you how to fully utilize the laws of attraction to take advantage of creating multiple income streams so that you too can begin living the life of your dreams. I will show you how to reach into yourself to find the products and services that most match your purpose in life. I will then teach you how to apply your passion to promoting your business to successfully create wealth.

THIS CLASS WILL TEACH YOU:

- what the laws of attraction have to do with building and maintaining wealth
- the importance of multiple income streams
- how to choose a product or service to sell
- the pros and cons of e-commerce
- how to start up a business in Chicago
- the difference between franchising, purchasing or starting a new business
- how to weed through all the paperwork
- where to find capital
- what multi-level marketing is all about
- how to market your new business to get your first customers or clients
- the tools you need to get started with your new business today

Walk away from this full-day workshop feeling empowered with the tools in hand to create a positive economic change in your life. Don't let this opportunity to take advantage of multiple income streams pass you by. Join me in building a bridge between your dreams and ultimate reality.

LUNCH & REFRESHMENTS WILL BE PROVIDED.
